

Hanson Research is pleased to announce the extension of our 65th anniversary celebration for another year, providing customers with a special 3 year warranty at no additional cost on all new dissolution and diffusion test systems invoiced and shipped during calendar year 2017. This program triples the industry average warranty and in conjunction with Hanson's global network of service and support professionals, it provides increased peace of mind and greater security for investments in laboratory equipment. Hanson Research was founded in 1951 by Bill Hanson with the goal of delivering innovative engineering solutions to industry. We remain fully committed to this principle today. Customers can rest assured that when they purchase a Hanson system they are receiving an instrument built to the same uncompromising standards established by Bill Hanson 65 years ago.

Terms and Conditions:

Orders must be shipped and invoiced during calendar year 2017. Qualifying instruments include: Elite 8, Classic 6, AutoPlus, AutoFill, AutoFilter Changer, Media-Mate Plus, 6-Cell Manual Diffusion Test System, and Vision Microette. Accessories not included. The 3 year warranty begins on the day the instrument is shipped from Hanson Research. Full system replacement during the first year only. In-place repair after the first year. Hanson Research reserves the right to amend the 3 year warranty program at any time without notice. All other standard terms and conditions shall continue to be in full effect. Commencing January 1, 2018, the standard one-year warranty will go back into effect for systems shipped on or after that date.
